

## **Mechanical Engineering Department Programme Educational Objectives (PEOs)**

Graduates are expected to attain Program Educational Objectives within three to four years after the graduation. Following PEOs of Department of Mechanical Engineering have been laid down based on the needs of the programs constituencies:

- PEO1** Encouraging intellectual curiosity, ingenuity, and originality through modern scientific and technology in problem-solving, motivating students to pursue lifelong learning and adapt to diverse global challenges.
- PEO2** Equipping students with the relevant intellectual skills, contemporary software proficiency, communication, entrepreneurial abilities, and critical thinking for professional success.
- PEO3** Fostering teamwork, flexibility, adaptability and interpersonal skills for effective engagement in engineering practice, business and in leadership roles.
